PLACEMENT OF LOGO
Centered.

Recycled PET

The panel fabric on this umbrella is made of recycled PET, in short R-PET. The recycled fabric is woven in thread that comes from consumer plastic, PET-bottles for example. Material that could be recycled is a gain for the environment and an important cornerstone in our work for sustainability. Beyond this, the umbrella is made in a CSR audited and approved factory and the overall material follows the REACH directives. We do this to make you feel comfortable when buying umbrellas from us. Thank you for making difference.
